

St. Kevin's - Senior M - Gospel Reflections

This is how Senior M students at St. Kevin's Primary School care for others:

We care for others by helping and being kind to them. We can also help people by asking how they are even if you don't like them. - Ruby

We can care for each other by helping people when they are in a difficult situation. - Trinity

If we take care of others God sees that and sees we care about someone. - Noah

We can care for others by being kind to family members, friends, strangers, neighbors and helping them when they need help. We could also take time out of our days to talk to people who are sad and have no one to talk to. - Presley

We can care for others by donating and taking time out of our days to speak to them and make sure they are doing good. We can have smiles on our faces to make people's day brighter and make them feel like they aren't alone and they should be happy for everybody around them. - Mila

We can care for others by helping each other, asking how their day is going and to be kind and care for each other. - Patrick

We can care for others by looking out for each other, being nice, doing good deeds to one another and by being better people to our friends, family and strangers if needed. - Miles

I care for others by doing my chores to get money to donate and help others. Also sometimes I help people in public if they are stuck in a situation. - Max

We can care for each other by giving others happiness, helping people when they are having trouble. We can make them smile and make their day. - Alexandria

We can care for each other by giving money to the homeless or if someone is stuck helping them, if someone is sad, help them just be a nice guy. - Luke

I can care for others by always asking how people are and making sure they are always feeling alright and if they aren't I should be open to talk about it. - Gianni

I can care for other people by helping them if they are in need of help. I can help others by making sure they are ok and brightening up people's days. Being nice to people even if they are mean to you and taking care of others when they aren't in a happy mood and respecting that. - Madeline

We can take care of others by helping people by going out of our way to help them and talk to them. - Maeve

We can take care of others by always being kind and nice to them, and helping them. - Tigger

**"Jesus shows us how to care for others when he heals a deaf and mute man"
Mk: 7:31-37**
